

Why I'm going to Labour Day..

Lisa

Australian workers need fair workplaces. Our rights and conditions are eroding and we deserve better.

As an educator and parent preparing young people for their careers, I want to see them provided with the opportunity of full employment.

Margi

We need recognition of the sovereign rights of the First Nations people of Australia in the constitution.

Angela

I march to honour the past, protect the present and encourage the future.

Joanne

Brent

The pendulum has swung far too much. Let's make it fair for the workers.

Labour Day represents unity and solidarity and a chance to celebrate our hard-fought achievements.
